*The NorthEast Hawk Watch (NEHW) was founded to promote the systematic study of migrating hawks. This involves collecting, organizing, publishing, and distributing hawk count data. We are the first self-sustaining chapter of the Hawk Migration Association of America (HMANA). Even with non-profit status, however, we have the expense of publishing and mailing the yearly count data. We need your membership to help us accomplish this important task, as we continue to seek answers to the many unexplained questions relating to hawk migration.*
